

## City Restricts Use of Undercover Operations

The Palm Springs City Council has unanimously endorsed the police department's new proactive enforcement policy to control lewd conduct.

This policy restricts the use of decoy undercover operations.

"Palm Springs has always embraced diversity and tolerance and wants the LGBT community and all visitors to continue to feel safe and welcome in our City at all times," the Council stated.

"In addition to the new enforcement policy, our police department has instituted comprehensive LGBT sensitivity training. The police department continues to meet with residents and hoteliers to receive neighborhood input and to refine the implementation of the new policy," the Council added.

These steps serve as a reminder to citizens and all visitors that Palm Springs is a safe and welcoming city and unique vacation destination for everyone.
