DAN TARNOVERNU, requested a more sensitive project that considered current historical standards.

KITTY KIELEY HAYES, stated the community was delighted when the structure was designated a Class 1 site, the property needs attention, and requested the design be consistent with the original design and footprint.

Councilmember Foat suggested that a couple of HSPB members be added to the committee working on the project.

Councilmember Weigel suggested the City Council continue the public hearing, and work with the Director of Planning toward a redesigned architectural plan that is acceptable to the City Council.

Councilmember Mills questioned how the discussion relates to an HSPB appeal.

Mayor Pro Tem Hutcheson suggested the individual Councilmembers provide comments to the Director of Planning Services.

Councilmember Mills stated that if the City Council does not support the appeal, the appeal is about a specific item about the look or design, the City Council should deny the approval and instruct the architect or the Owners Representative to redesign, but a major portion of the motion should provide direction if the City Council considers the interior as a Class 1 site as well, and recommended the City Council allow the appeal on the flexibility of interior, but deny a portion of the appeal pertaining to the exterior and the footprint modifications.

ACTION: 1) Deny the appeal; 2) Request Project redesign to come forward; and 3) Direct Councilmembers to make individual specific comments regarding the redesign to the Project Redesign Team within two weeks. **Motion Mayor Pougnet, seconded by Mayor Pro Tem Hutcheson and carried 3-2 on a roll call vote.**
