

CITY COUNCIL STAFF REPORT

DATE: September 21, 2011
AGENDA

CONSENT

SUBJECT: ACCEPTANCE OF \$125,000.00 IN GRANT FUNDING FROM THE CALIFORNIA OFFICE OF TRAFFIC SAFETY (OTS) FOR A SELECTIVE TRAFFIC ENFORCEMENT PROGRAM TO BE USED TO ENFORCE, EDUCATE, AND BRING AWARENESS TO THE PUBLIC.

FROM: David Ready, City Manager

BY: Palm Springs Police Department

SUMMARY

It is recommended that the City Council authorize the City Manager to accept \$125,000.00 in OTS grant funding for the Police Department to utilize for a Selective Traffic Enforcement Program. The total grant amount will be \$125,000.00. The grant funds will be used to conduct DUI checkpoints, conduct saturation patrols, warrant sweeps, multimedia presentations at our local schools, and acquire equipment which is used to prevent DUI violations. Grant funds will also concentrate on the enforcement of speed and red light violations.

RECOMMENDATION:

1. Accept \$125,000.00 in grant funding from the California Office of Traffic Safety for a Selective Traffic Enforcement Program.
2. Authorize the City Manager to execute all necessary documents.

STAFF ANALYSIS:

The Police Department rigorously enforces DUI laws by conducting DUI checkpoints, saturation patrols, warrant sweeps, and developing awareness programs such as multimedia presentations at our local schools. The Police Department also enforces speed and red light violations by conducting operations at intersections and streets with disproportionate numbers of traffic collisions. These projects are labor intensive and

Item No. 2.N.

thus expensive. The Police Department plans to conduct 76 special operations during this grant period. The department has been successful in obtaining grant funding to pay for the personnel and equipment costs for these programs.

The Police Department was able to successfully solicit OTS grant funding for this community safety project and was awarded \$125,000.00 in grant funding.

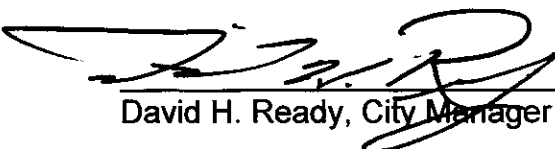

This grant period is for a Selective Traffic Enforcement Program between 10/1/11 and 9/30/12.

FISCAL IMPACT:

No fiscal impact. This is a reimbursable costs grant program. No matching funds are required to obtain this additional grant funding.

Objectives

Order	Objective ID #	Objective	Use of Funds
1	25	To issue a press release announcing the kick-off of the grant by November 15 of the first grant year. The press releases and media advisories, alerts, and materials must be emailed to the OTS Public Information Officer at pio@ots.ca.gov, and copied to your OTS Coordinator, for approval 14 days prior to the issuance date of the release.

If an OTS template-based press release is used, the OTS PIO and Coordinator should be copied when the release is distributed to the press. If an OTS template is not used, a draft press release must first be sent to the OTS PIO for approval. Drafts should be sent for approval as early as possible to insure adequate turn-around time. Optimum lead time would be 10-20 days prior to the operation. Media communications reporting the results of grant activities such as checkpoints and saturation patrols are exempt from the advance approval requirement. Activities such as warrant or probation sweeps and court stings that could be compromised by advanced publicity are exempt from pre-publicity, but are encouraged to offer embargoed media coverage and to report results.	
3	34	To use the following standard language in all press, media, and printed materials: Funding for this program was provided by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration.	
4	55	To issue a press release prior to each motorcycle safety enforcement operation to raise awareness about motorcycle safety in general and to draw attention to the motorcycle safety enforcement operations. If you (grantee) choose not to use the OTS template, the press releases and media advisories, alerts, and materials must be emailed to the OTS Public Information Officer at pio@ots.ca.gov and copied to your OTS Coordinator for approval 14 days prior to the issuance date of the release.	
5	226	To email the OTS Public Information Officer at pio@ots.ca.gov, and copy your OTS Coordinator, at least 30 days in advance a short description of any significant grant related traffic safety event or program so that OTS has enough notice to arrange for attendance and/or participation in the event.	
6	227	To submit a draft or rough-cut of all printed or recorded material (brochures, posters, scripts, artwork, trailer graphics, etc.) to the OTS Public Information Officer at pio@ots.ca.gov, and copy your OTS Coordinator, for approval 14 days prior to the production or duplication.

PROBLEM STATEMENT

Using local data (not OTS Rankings or SWITRS), complete the table below.

	Collisions		Victims		Collisions		Victims		Collisions		Victims

PROVIDE DETAILED ANSWERS TO THE FOLLOWING QUESTIONS AS PART OF THE PROBLEM STATEMENT:

1. Describe current traffic unit complement (number of personnel and classifications). If applicable, describe how the size of the traffic unit has fluctuated in the past five years and why.

The Palm Springs Police Department is comprised of 86 sworn police officers; seven of whom are assigned to the traffic unit. The PSPD traffic unit is comprised of one sergeant, one traffic investigator, one DUI enforcement officer and four motor traffic enforcement officers. Although the City's population fluctuates dramatically throughout the year; the traffic unit staffing remains the same, and has remained the same throughout the past five years.

The City of Palm Springs is an international resort destination community with an international airport and an estimated 2 plus million visitors each year. In 2009, the census listed the population of Palm Springs as 48,184; but these numbers fluctuate to over 100,000 during a typical winter weekend. With nearly 80,000 calls for service last year and increases in calls for service every year; uniformed patrol officers keep very busy handling these calls, not allowing significant time for traffic and DUI enforcement. Traffic unit officers handle nearly every traffic collision and they are responsible for nearly 90% of all citations issued throughout the City of Palm Springs. The DUI enforcement officer was responsible for approximately 20% of all DUI arrests in the City last year.

2. How many sobriety checkpoints did your department conduct between October 1, 2009 and September 30, 2010? (Include checkpoints from all funding sources, i.e. OTS grants or mini-grants, and department funded).

4. Does your Agency participate in an AVOID DUI program? (If yes, complete 4a).
 Yes No
 - a. AVOID the 30 DUI Campaign in Riverside County
5. What percent of your DUI arrests between October 1, 2009 and September 30, 2010 were made as a result of a collision?
20%
6. What percent of your total fatal and injury collisions between October 1, 2009 and September 30, 2010 occurred at intersections?
92%
7. Describe the problem caused by red light running in your city.
Violations of 21453 CVC (failing to stop for a red light) are slightly behind failure to yield the right-of-way and excessive speed when it comes to the primary collision factor (PCF) for the most collisions in Palm Springs. The injury rate for this violation, however, is significantly high. In 2009, for example, there were 171 collisions with excessive speed as a PCF. 62 of those collisions (or 36%) resulted in injuries. There are similar numbers for failure to yield the right-of-way as PCF. In the same year, there were 69 collisions with red light running (21453 CVC) as the PCF; 43 of those (or 62%) resulted in injuries. In 2010, there were similar figures. There were 134 collisions with speed as the PCF. 54 of these (or 40%) resulted in injuries. In the same year, there were 49 collisions with with 21453 CVC as the PCF; 33 of those (or 67%) resulted in injuries. For the past five years, there were 310 collisions with 21453 CVC as the PCF; 222 of those (or 72%) resulted in injuries.
In summary; although red light running is not the most common PCF for collisions in Palm Springs; this violation is a significant cause of injury collisions in the City.
8. What are your primary collision factors?
22350 CVC (Speed) and 21801 / 21802 CVC (Failure to yield right of way) are the most common primary collision factors for injury and non-injury collisions in Palm Springs. Trailing closely behind is 21453 CVC (Red light violations).
9. Seat belt citations make up what percent of all hazardous citations issued?

METHOD OF PROCEDURE

Phase I: Program Preparation, Training and Implementation (1st Quarter of the Grant Year)

- The police department will develop operational plans to implement the "best practice" strategies outlined in the objectives section.
- A draft news release will be submitted to OTS to announce the grant program.
- All training needed to implement the program will be conducted this quarter.
- All grant related purchases needed to implement the program will be made this quarter.
- In order to develop the "Hot Sheets", research will be conducted to identify the "worst of the worst" repeat DUI offenders with a suspended or revoked license as a result of DUI convictions. The Hot Sheets may include the driver's name, last known address, DOB, description, current license status, and the number of times suspended or revoked for DUI. Hot Sheets will be updated and distributed to traffic and patrol officers every three to four weeks.
- Implementation of the STEP program will be accomplished by deploying personnel at high collision locations.
- DUI/Driver's License checkpoint site locations will have a history of significant alcohol involved collisions and/or DUI arrests.

Phase II: Community Awareness (Throughout Grant Period)

- The police department will work to create media opportunities throughout the grant period to call attention to the innovative program strategies and outcomes.

Phase III: Data Collection & Reporting (Throughout Grant Period)

- The police department will submit a Quarterly Performance Report (QPR) and a separate quarterly data reporting form within 30 days following each calendar quarter.
- The final QPR, Data Form, Claim and Executive Summary are due to OTS 30 days following the grant's termination.

EXHIBIT C
PROBLEM STATEMENT AND METHOD OF PROCEDURE

- Reports shall be completed and submitted in accordance with OTS requirements specified in the Grant Program Manual.

Method of Evaluation

Using the data compiled during the grant, the Grant Director will: (1) briefly state the original problem, (2) specify the most significant goals and objectives, (3) highlight the most significant activities that contributed to the success of the program and the strategies used to accomplish the goals, and (4) describe the program's accomplishments as they related to the goals and objectives.

EXHIBIT D
CERTIFICATIONS AND ASSURANCES

Failure to comply with applicable Federal statutes, regulations, and directives may subject Grantee Agency officials to civil or criminal penalties and/or place the State in a high risk grantee status in accordance with 49 CFR §18.12.

The officials named on the Grant Agreement, certify by way of signature on the Grant Agreement signature page, that the Grantee Agency complies with all applicable Federal statutes, regulations, and directives and State rules, guidelines, policies and laws in effect with respect to the periods for which it receives grant funding. Applicable provisions include, but are not limited to, the following:

- 23 U.S.C. Chapter 4 - Highway Safety Act of 1966, as amended
- 49 CFR Part 18 - Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments
- 23 CFR Chapter II - (§§1200, 1205, 1206, 1250, 1251, & 1252) Regulations governing highway safety programs
- NHTSA Order 462-6C - Matching Rates for State and Community Highway Safety Programs
- Highway Safety Grant Funding Policy for Field-Administered Grants

Certifications and Assurances

The Grantee Agency will implement activities in support of national highway safety goals to reduce motor vehicle related fatalities that also reflect the primary data-related crash factors within the State as identified by the State highway safety planning process, including:

- National law enforcement mobilizations,
- Sustained enforcement of statutes addressing impaired driving, occupant protection, and driving in excess of posted speed limits,
