### SUMMARY

The Public Works and Engineering Department schedules an asphalt overlay of various City streets. Each year the City budgets funding to overlay a few streets that are too deteriorated to receive a slurry seal treatment. The construction documents (Plans, Specifications and Estimate) are completed and, in accordance with Section 7.03.040 of the Procurement and Contracting Code the Council is required to approve and adopt plans, specifications and working details, and authorize the bid request for all public projects in excess of \$100,000. Approval of this project will allow staff to proceed with this public project, with an estimated cost of approximately \$1,500,000.

### RECOMMENDATION:
