

CITY COUNCIL STAFF REPORT

DATE: December 5, 2012 CONSENT AGENDA

SUBJECT: REPORT OF EMERGENCY REPAIR TO AIRPORT SECURITY ACCESS CONTROL SYSTEM PURSUANT TO PALM SPRINGS MUNICIPAL CODE 7.040.040 (3) EMERGENCY PROCUREMENT.

FROM: David H. Ready, City Manager

BY: Palm Springs International Airport

SUMMARY

This action will serve as a report of an emergency repair expenditure authorized by the City Manager, related to the Security Access System at the Palm Springs International Airport.

RECOMMENDATION:

Ratify the emergency expenditure for the Airport's Security Access System to Systems Integration Corporation in the amount of \$34,984.17.

STAFF ANALYSIS

The Airport's primary Security Access Control system encountered a loss of the primary computer servers. Working with the City's IT staff, the maintenance technicians from Systems Integration Corporation restored the system temporarily until the more permanent repairs were made. Disruptions in the airport's operations were avoided due to the immediate action taken. After these initial repairs were made, the contracted service provider Systems Integration Corporation proceeded to complete the ensuing permanent software, controller, and workstation upgrades and testing of all components to verify system reliability. This effort resulted in the total expenditure of \$34,984.17 above the current annual service contract amount.

FISCAL IMPACT

Funds for this emergency repair expenditure are available and encumbered from account No. 415-6225-43200.

Thomas Nolan
