Palm Springs Wastewater Treatment Plant COVID-19 Testing Test Results from October 17 & 18, 2022

Palm Springs is one of many agencies voluntarily sampling its wastewater for the detection of SARS-CoV-2. To do the test, the City takes 24-hour composite samples from the wastewater treatment plant and sends them via dry ice to GT Molecular, a testing laboratory in Fort Collins, Colorado, for analysis.

City of Palm Springs Wastewater Treatment Plant SARS-CoV-2 Concentration - Number of Viral Copies per Liter of Wastewater Last 90 Days

The average number of copies/L recorded at the City's wastewater treatment plant increased. The average of 210,433 copies/L from the previous week went up to an average of 390,081 copies/L for October 17 & 18, 2022.

Regarding Highly Transmissible Variants of Concern:

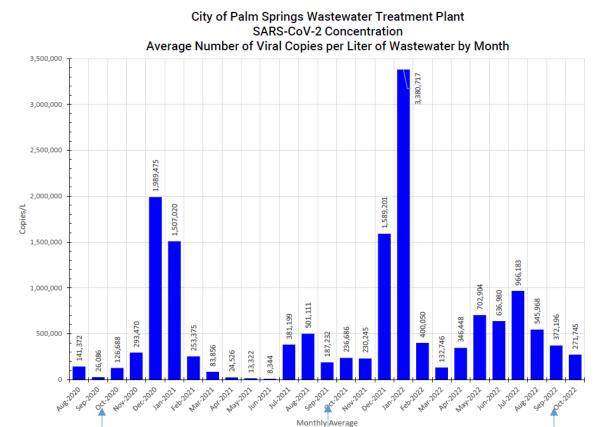

The lab is testing for variants and subvariants of concern. It does this by identifying associated signature mutations in the genes that encode the spike protein of the virus.

The Omicron BA.5 subvariant still appears to be the dominant subvariant circulating in the community.

Tracking Omicron subvariants

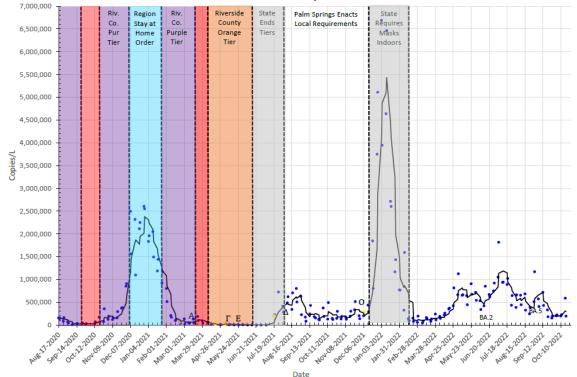

| Date | %BA.2.12.1 | % BA.4 | %BA.5 |
|----------|------------|--------|-------|
| 9/19/22 | 0% | 5.7% | 97.0% |
| 9/20/22 | 0% | 5.2% | 82.9% |
| 9/26/22 | 0% | 9.3% | 90.4% |
| 9/27/22 | 0% | 1.4% | 95.5% |
| 10/3/22 | 0% | 2.9% | 92.3% |
| 10/4/22 | 0% | 2.7% | 100% |
| 10/10/22 | 0% | 1.2% | 96.5% |
| 10/11/22 | 0% | 0.7% | 100% |
| 10/17/22 | - | - | - |
| 10/18/22 | 0% | 1.5% | 95.4% |

Monthly Averages: Here are the monthly averages since we started testing in August 2020

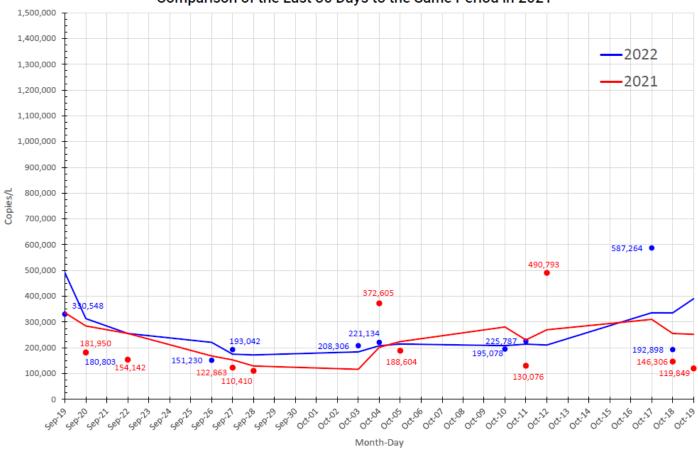

<u>Full Data:</u> Here is a historical look at the data we've collected throughout the pandemic.

City of Palm Springs Wastewater Treatment Plant SARS-CoV-2 Concentration Data Compared to California Reopening Tiers for Riverside County, State Requirements and Local Requirements

Data is similar to where we were a year ago. Late November/early December spikes occurred in the past 2 years.

City of Palm Springs Wastewater Treatment Plant SARS-CoV-2 Concentration - Number of Viral Copies per Liter of Wastewater Comparison of the Last 30 Days to the Same Period in 2021
